Create a Website to Promote Sri Lanka Tourism

Objective: Design and develop a **basic, static website** for a fictional tourism agency focused on promoting Sri Lanka, using **only HTML, CSS and JavaScript**. The website should showcase the beauty, attractions, and travel packages available for tourists interested in visiting Sri Lanka.

Important Requirements:

- **Use ONLY HTML, CSS and JavaScript for this project.**
- **Do not use any frameworks or other languages and technologies.**
- **Write clean, well-structured code** for ease of understanding and maintenance.

Instructions:

1. **Pages to Include:**
   o **Home Page:**
      ▪ A welcoming page introducing Sri Lanka as a travel destination.
      ▪ Use eye-catching images of popular locations (e.g., beaches, cultural sites).
      ▪ Brief highlights on what Sri Lanka offers tourists: culture, adventure, nature, etc.
   o **About Us Page:**
      ▪ Details about the fictional tourism agency, its mission, and values.
      ▪ Include contact information (address, phone number, and email).
   o **Packages Page:**
      ▪ List different travel packages (e.g., Adventure Tour, Cultural Tour, Beach Getaway, Wildlife Safari).
      ▪ Each package should include:
         ▪ A short description.
         ▪ Price details.
         ▪ Duration of the tour.
         ▪ Key attractions covered.
      ▪ Structure the page layout attractively with HTML, CSS and JavaScript only.
   o **Destinations Page:**
      ▪ Showcase popular destinations in Sri Lanka (e.g., Sigiriya, Ella, Galle, Kandy, Yala National Park, Colombo).
      ▪ Provide a short description and image for each destination.
      ▪ Use simple and clean HTML, CSS and JavaScript code to create a visually appealing layout.
   o **Enquiry Page:**
      ▪ Include a form for users to inquire about packages or request more information.

- Form fields should include:
  - Full Name
  - Email Address
  - Phone Number
  - Preferred Package
  - Message or Special Requests
- This form does not need backend functionality—design it with only HTML, CSS and JavaScript for practice.

2. **Design Requirements:**
   - Use **HTML for structure** and **CSS for styling, JavaScript for Events**.
   - Avoid any frameworks or pre-built CSS libraries (e.g., Bootstrap).
   - Maintain a **consistent design** and navigation across all pages.
   - Choose colors and fonts that reflect Sri Lanka's tropical, welcoming tourism theme.
   - Focus on a clean, readable, and visually appealing design.

3. **Submission Details:**
   - Compress the project files (HTML, CSS, JavaScript, images) into a **.zip** file.
   - Ensure that all files are organized in folders (e.g., CSS, images).
   - Upload the **.zip** file to the **LMS** by the due date.
   - Maximum uploading file size 5Mb (If your file is larger than the limit you can use online images)

Mini Project – Task 02

Viva Instructions for Mini Project

Preparation:

1. **Bring Your Work:** Ensure you have your completed website project and ready on your laptop.
2. **Set Up Your Environment:**
   - Have your preferred text editor (e.g., Visual Studio Code, Sublime Text, Notepad++) open and ready.
3. **Practice Your Presentation:**
   - Be prepared to explain your design choices, code implementation, and problem-solving approaches.

During the Viva:

1. **Project Demonstration:**
   - Start by demonstrating your website's functionality, including navigation, page loading. etc.
   - Explain the HTML, CSS, JS code used for the website.
   - Highlight the key features and design elements of your website.

2. **Code Explanation:**
    o Be prepared to explain specific code segments and how they work.
    o Discuss any challenges you faced during development and how you overcame them.
    o Explain the logic behind your design decisions and code implementation.
3. **Question and Answer Session:**
    o Be ready to answer questions from the examiners about your project, code, and design choices.
    o Be clear, concise, and confident in your responses.
    o If you don't know the answer to a question, admit it and offer to research it later.

Additional Tips:

- **Be punctual:** Arrive on time for your viva.
- **Be confident:** Project a positive and confident demeanor.
- **Be prepared to think on your feet:** Be ready to answer unexpected questions.
- **Practice good communication skills:** Speak clearly and concisely.
- **Be honest:** If you encounter any difficulties or make mistakes, be honest about them.
